Student knowledge assessment system

Assessment of the level of student learning achievement in the educational component of the educational program includes assessment forms – midterm (single or multiple) and final assessment, the sum of which is a final grade (100 points).

Midterm and final assessment (assessment forms) include component/components, determines the method / methods for assessing student knowledge and / or skills and / or competencies (oral / written exam, homework, practical / theoretical work, etc.). Assessment component combines common assessment methods (test, essay, demonstration, presentation, discussion, practical / theoretical assignment, working in a group, participating in a discussion/simulation, etc.). Method / Methods of assessment are measured by assessment criteria, i.e. through unit of measurement of the assessment method, which determines the level of achievement of learning outcomes.

Each form and component of assessment from the assessment total point (100 points) has a specific share in the final assessment, which is reflected in the specific syllabus and is reported to the student at the beginning of the semester.

Credit should not be granted using only one form of assessment (midterm or final assessment). Credit is granted, if the student receives a positive assessment.

During the implementation of the educational program, the specific share of minimum competence limit of student's midterm and final assessment will be reflected in the specific curriculum and will be communicated to the student at the beginning of the semester. The assessment system includes:

Five types of positive assessment:

(A) Excellent	81-90% of max grade
(B) Very good	71-80% of max grade
(C) Good	61-70% of max grade
(D) Satisfactory	51-60% of max grade
(E) Sufficient	41-50% of max grade

Two types of negative assessment:

(FX) Unsatisfactory	41-50% of max grade - meaning a student needs more effort to pass an examination and is given an extra chance to pass an additional examination through independent work;
(F) Failed	40% and less of max grade - meaning the student's effort is not enough and he has to learn the subject anew.

Forms and components of assessment

Forms and components of assessment	Max grade
Midterm assessment, including:	70 points
Written / oral exam	30

Midterm written / oral exam	30
Individual homework / presentation	10
Final Assessment	30 points
Final written / oral exam	30
Total	100 points

In the training component of the educational program, in the event of receiving FX, an additional exam will be scheduled at least 5 calendar days after the announcement of the results of the final exam. The points earned in the final assessment are not cumulative with the points obtained in the additional exam. The additional exam's assessment is a final assessment and will be reflected in the final assessment of the training component of the educational program. Given the grade obtained on the additional exam, if the student earns 0-50 points in the final grade of the educational component he will be given F-0 points.

Field of employment

Graduate will be employed in public and private institutions, governmental and non-governmental organizations, the media, religious organizations, publishing and scientific-research institutions and / or others, where a Bachelor of Arts degree in theology is required /sufficient. Graduates can also be employed: in case of studying an additional management program - both in the administrative, economic, information and other services, firms and enterprises of Georgian and foreign companies; In case of studying additional tourism program - State institutions (ministries and other executive bodies), relevant specialized organizations in the non-governmental and private sectors, in international organizations, in the media.
